CERTIFICATE

Nr: LDsq08-0608-0135-22

Description : Devices to prevent falls referred to in point 3.2 of Annex I to prevent the car from falling or uncontrolled movements of Lifts Directive 2014/33/EU

Application areas:

✓ Electrical and Hydraulic Lifts

Type Variants:

PRO 2000-I: Unidirectional progressive safety gear

PRO 2000-II: Bidirectional progressive safety gear

The progressive Safety gear is also used as a braking device, together with the approved detection and triggering devices that are part of the uncontrolled car movement protection devices.

The type approval must be updated in case the design in the approved technical drawing is changed and / or a contact/switch other than the specified electrical contact/ switch is used. Type examination certificate can be used for products conforming to the information given in this annex.

D KARE GÖZETİM TEST VE BELGELENDİRME TİC. LTD. ŞTİ.;

Evaluated and approved that the safety component for lifts manufactured by the company stated above meets the essential health and safety requirements of the Lifts Directive 2014/33/EU Annex I.

2014/33/EU Annex IV/A EU Type examination of safety components for lifts (Module B)

PRODUCT;

Description	: Devices to prevent falls referred to in point 3.2 of Annex I to prevent the car from falling or uncontrolled movements of Lifts Directive 2014/33/EU
Name	: Unidirectional and Bidirectional Progressive Safety Gear
Trade Mark	: METROPLAST
Type	: PRO 2000
Type Variants	: PRO 2000-I, PRO 2000-II
Basic Specifications	: Detailed annex of this certificate

Re-evaluation should be performed by D KARE if any change occur on the design of the types stated in annex of this certificate or any change occur on the relevant harmonised standard.

This certificate is issued according to the findings stated in final report Nr. LDsq08-0607-0135-22 dated 07/06/2022

Inspection and test methods stated in harmonised standards EN 81-20:2020 and EN 81-50:2020 has been applied during conformity assesment process.

C- RESULT AND REPORT INFORMATION

The Lift Directive (2014/33 / EU) published in the Official Gazette dated 29 June 2016 and numbered 29757, within the framework of Section 4, Article 19 (a) of the 2014/33 / EU Lift Directive IV. For the purpose of issuing an EU Type Examination certificate in accordance with subparagraph A of the Annex, the inspection and testing procedures of the safety gear of the applicant are in accordance with the Basic Health and Safety Requirements of 2014/33 / EU Lift Directive Annex-I and the applicable articles of carried out according to EN 81-20 and EN 81-50 standards.

Recommendation of Technical Expert : As a result of the conformity assessment process, it has been determined that the type of lift safety equipment which technical characteristics are specified in this report is in compliance with Annex-1 Basic Health and Safety Requirements of Directive 2014/33/EU of the European Parliament and of the Council relating to lifts and safety components for lifts
